**Subject:** FW: Odor on 18 floor

(b) (6) FYI. I asked GSA's oversight contractor, Darren, to check out the smell to see if there could be a construction connection. Doesn't look like the case. I know that Jonell is still working this from the ongoing facilities side.

**Subject:** RE: Odor on 18 floor

The main construction activity at this point is installation of system furniture, A/V, and Testing and Balancing of Mechanical equipment. Based on my observation, there should be no construction activity causing an odor problem mentioned below.

Darren

Darren – Jonell is working this issue from the property management angle with Pam. Can you please check with Sellen to make sure there is no construction issue above or below 18 that could result in this odor problem. Thank you.

The smell is still very strong. It is concentrated near the copier and cubes by (b) (6) office.  
(b) (6) said it gave him a terrible headache yesterday; I may need to go home or leave my desk.

Security smelled it on arrival yesterday morning and it was gone by the time I arrived just after 8. It smells like cleaning products, but our cleaning crew hasn't changed products. I'm checking with engineering and janitorial to see what we can track down.

Thanks.

Pam

Any clue what that was/is? I didn't smell anything at our meeting yesterday....

Hi Jonell –  
All day there has been a strong odor of cleaning supplies on 18.  
Sort of like Mister Clean or a harsh industrial cleaner.  
I'm not usually bothered by scents, but this one is giving me a headache and watery eyes.  
Thanks!
